WHO IS BESS GEORGETTE?

www.bessgeorgette.com

Bess Georgette is an Australian [online store](#) of unique vintage fashion and accessories. Offering a seasonal selection of Australian and overseas vintage, Bess Georgette has attracted and kept a growing customer base through active and engaging involvement in social media networks such as [Twitter](#), [Facebook](#), [Pinterest](#) and [Instagram](#).

With a collection of vintage from the 1940s to 1980s, and a special focus on mid-century vintage, Bess Georgette aims to provide the modern vintage-loving woman a place where they can not only find a beautiful frock but a range of vintage clothing and accessories they can easily incorporate into their wardrobe.

THE LADY BEHIND BESS GEORGETTE

Bess Georgette founder Teresa Prowse spends her free time fossicking through op shops, auctions and estate sales unable to pass up vintage treasures regardless of their shape or size. It is this obsession with finding all things vintage (and her own overwhelmed wardrobe) that saw Teresa start Bess Georgette. Teresa loves sharing her passion with others and nothing makes her happier then seeing a vintage piece start a journey with a loving new owner.

All Bess Georgette vintage is carefully selected by Teresa for its authenticity and wearability, and is sold to vintage lovers, vintage collectors and even historical collections around the world.

Teresa complements her collection of vintage with a [blog](#) where she shares her research into Australian vintage fashion, her love for a good period drama and the odd vintage recipe or two!
